

## All Discussion Question Responses

Q1. What is your vision for outdoor recreation and open space in the City of Superior? (What should the goals of this plan be?)

- Safe place for people to go
- Outdoor space, purposeful green space area to hold large events, football, etc., music, craft fairs, soccer events
- Bathrooms available, well maintained
- Bike trails to WI Point
- More development of boat landing 28<sup>th</sup> St. land
- Trails-connecting trails, not only walking & hiking trails, but ATV/snowmobile trails
- How to bring revenue in to justify improvements? Build/investments that will allow us to make these improvements
- Advertise what is here better. So many assets we have. Some marketing.
- Have enough of a community that embraces recreation
- Be complimentary to Duluth!! There is a lot we can do they don't
- Better coordination between rec groups & city/county leaders
- More outdoor recreation tied into economic development. Tie into planning components
- Think more toward how we can utilize our existing resources to build to a niche market
- Effective use of space: respect finite amount of space
- Development of Wisconsin Point: we need to be very cautious
- We need to do a better job of recognizing Native American heritage
- Museum, recognizing native-on the Point
- Trail connectivity
- Itasca is the entrance-not the exit
- What do people see? A tractor facility-\*rolls eyes
- Need to recognize it should be accessible
- Desperately need bike/ped connectivity
- Lots of elderly & children in Itasca
- US 2 crossability is very dangerous
- Maintenance of trails for wheelchair access is dangerous
- Eliminate barriers to access parks-crossability of East 2<sup>nd</sup>
- PR, marketing increase, signage improvements
- Promote & develop while preserving its current character (WI Point & Mun. Forest). Find WI Point alternatives with more services offered
- Everyone likes WI Point's natural feel as well as having it not full of people
- Lots of funding, so things get done
- Opportunities for all age and user groups
- Handicap accessible
- Updated bathrooms
- Disc golf & snowshoeing
- Large facility for sports complex
  - Build tournaments & large events
- Safe biking, walking
  - Connecting trails throughout the city
- Enforcement of dogs on & off leash
  - On designated trails
  - Leash laws on all trails
- Updating old facilities
  - To fit current needs of users
- How can we use what we have?

- Disc golf
- Can we maintain what we want?
  - Is there a plan to be proactive?
  - Is this the city's priority? Or should this be active to user groups?
- Fees & funding to help city deal with maintenance costs
- Handicap accessibility
- Maintain what we have
- Connectivity between trails
- Accessibility for everyone to get outside
- Nearby and connected with each other
- Usability of trails in winter and all year long
- Dangerous to walk in streets (Mariner Mall)
- Parks and forest sold off for housing
- Wisconsin Point is a jewel
- Preservation of Indian Burial grounds
- Forest uses-no four-wheelers
- Parking at dog park & Millennium Trail
- Family oriented-something the whole family can do
- Well maintained
- Mountain biking
- Disc golf
- Responsive to emerging sports
- City school district
  - Coordinate between different entities to market & utilize what we have
- Updated branded signage
- Better marketing
- Better identity to parks
- Connection:
  - Socially
  - Community investment
  - Transportation flow:
    - Recreation integration w/ transportation options
- Conner's Point:
  - Recreation space
  - Maritime access path
- Safe outdoor recreation spaces
- All season use for Municipal Forest
- Recreation strategies linked to Public Health
- Bus access to parks (all parks) DTA (public transportation)\*
- Interpretive centers-cultural & natural
- Signage
- Branding campaign focused on Superior/get green space advertised & out to the public. Marketing plan to help make community aware of what's available to them
- Bus tours from SR centers & assisted living to Billings Park & Wis Point-comm based field trips
- Improved maintenance/upkeep of softball fields
- To increase the outdoor activity opportunities
- Better access to outdoor recreation
- Connectibility to parks and trails
- Inner city trail system established
- Bike trails and lanes that connect the parks
- Creating an elaborate Frisbee golf 18 hole course in the Superior Municipal Forest & Hog Island.
- ATV accessible throughout the city (trails year round)

- Put vending machines and picnic areas by the Frisbee golf to create sense of community, and create revenue at the course itself, along with friends and family to have in a safe place
- Technology in the arks system to use and find specific trails through apps and so people can access them
- Better marketing with trail system and signage for people using trails
- Kayak and boat accessibility on the water front
- Utilizing the waterfront in Billings Park better
- Legalizing access to ATV trails within town
- Zipline park in forest
- Attractive, accessible, & utilized outdoor open space & amenities
- Connectivity & accommodating major events triathlon, biathlons, bike races (promote visitation & tourism \$) event planners-private encourage
- Trails country connected within city, motorized/shared w/ fat bike tire & perhaps into MN/Oliver, ATV & non-motorized connectivity around town
- Marketing asset/private event planners, etc. bring people into town spend \$
- Make Superior great place to live/attract & retain residents, take advantage of what's unique in the region: Wis Pt. & Municipal Forest (underutilized)-make known to both residents and visitors
- Restrooms needed Wis Pt & other locations
- Entrances to parks more attractive consider parking areas/lights, etc.
- Communication/organized to residents & potential visitors to the area. Marketing coordinated effort internal & external city
- Municipal Forest-Rd/etc. willing make more attractive hiking opportunities identifying assets
- Private enterprise to provide rental opportunities. Bikes, kayaks, etc.
- Better directional signage to notify people of amenities
- Focus on higher value utilized resources & parks
- Better community involvement to help w/ maintenance & upkeep of amenities
- Increased pride & quality of neighborhood parks. Investment. Keep community engaged
- Consider Wi-Fi at parks
- Maintain current:
- Serves variety of recreational interests
  - Trails for motorized/nonmotorized that connect & are useful and safe
  - Water access
    - Build off National Water Trail
    - It's acknowledged Superior has more attractive shoreline and scenery
- Plan strategically & prioritize spending for future
  - Potential repurposing of current facilities
  - Strategic use of forest
- Promote resources for use
  - Guided use (rides, paddles, etc.)
  - Volunteer development
- Connect trails, lengthen trails, maintain trails year round for walking, biking, running, skiing,
- Better marketing of resources – destination
- Protect against private use or development
- Open ski trails for warm weather walking use
- Volunteer workers for trail maintenance
- Connectivity-access to the parks. Trails btw parks-get them connected. Cross-town connection
- Making facilities available to all-abilities, age,
  - Good quality so people willing to use
  - Be attractive to potential residents & visitors
- Maintaining & improving what we have
- Not huge developments in the Municipal Forest
- Better utilization of unused space
  - Ex: new activities in Municipal Forest
- Hog Island disc golf or maybe on WI Point

- Safety
- Signage in Municipal Forest
- Use rec as leverage for economic dev-drawing people here, tourism
- Improved water access for paddle sports along Municipal Forest to St. Louis River
- Limited # campsites w/ reservation system
- Good advertisement of amenities
- More parking at trailheads
- Have signs & prevention & education to avoid dumping, reduce trace
- Environmental Education to create connection & awareness & pride in parks/natural spaces
- Advocate for non-motorized use of Forest
- Accessibility via Public Transport
- Other: more dog bags
- Access to city of Superior for ATV & snowmobiles
  - Access to motels, gas stations, food-year
- Multi-use trails
- More dog parks
- More utilization of green space
- Tie the trails together-Osage/Millennium example
- Disc golf island-Hog Island
- Parks & rec's passes more easily accessible-online?
- 10 spots that people can gather
  - Well organized
  - Multiple accessibility
- Year round ATV-UTV trails
- Maintain current facilities
- Prioritize everything and make most efficient use of resources
- Connectivity/Environmental Education
- Offer guided opportunities, kayaking, etc.
- Marketing.../offer vending machines
- Signage within forest!
- Campsites w/ reservation system
- Parking/sponsorships for funding
- Promote & develop an app system on phone
- Promote kayaking & docking
- Protect from private development
- Volunteer workers & groups to curb costs
- Access & connectivity & multi-use trails
- Accessibility by many transportation motives
- Reservations by online (works for non & res)
- Wi-Fi in parks/ charging facilities

Q2. What do you envision the future of parks, recreation and open space to be by 2040?

- Would love to connect ATV, snowmobile trails
- Connect city parks with the trails
- Loop trails
- Hog Island disc golf
- More availability
- Shelter
- Equipment safer

- Wi-Fi
- Sustainability
- Less parks
- Better quality of parks
- Infrastructure-bathrooms
- Community. Trends may change but a community that revolves around parks. Find ways to incorporate community. Examples: -Add chargers to get kids out. Enhance wellness factor. – Drone parks –Training parks (mini ninja warrior)
- To sum up: innovation/adaptability so we're not falling behind trends & find ways to do it economically/with ecofriendly
- Find the next skate park idea
- Create connections @ low cost
- Encourage to not vandalize if they have a place to do it where they can legally eg. Trucks go off road –graffiti wall Jeep course to play
- Component Bike accessibility/pedestrian isn't even a thing. It's automatic. It's not an add on. We are seeing it instead of it being an afterthought.
- Think about how our solutions today may affect and become a problem tomorrow
- Maintain existing natural areas-limited development
- Establish motorized trails & routes
- Establish bathhouse & boat club (old Billings Park)
- Connecting trails to MN & economic development
- Better access to water areas where none is currently provided (north end-grassy point)
- Barkers Island "slip" along Hwy 2 clean up to ice skate, paddle boat & parents can watch on the 'hill"
- Limit development in WI Point & Forest
- Connecting motorized trails
- Beach house & boat club
- Focus on economic dev. w/ promotion & connection to trails->ride trail and then get beer & food
- Get a way to rent ice skates and have people skate next to tracks. It's shallow and safe
- Off road jeep/mud bogging area
- In 20 years it will be a destination, focused mainly for disc golf
- Hog Island would be the ideal disc golf stop (world's only island course) (also attract the younger crowd)
- Make a decision on what we want to do & become known for it. Whatever that may be. Find Identity.
- Separate ourselves from surrounding communities
- More hold of user groups with their spaces-being proactive. Large events
- More involvement by the public because these spaces are hard to find! Stepping away from the noise to enjoy nature. Protecting these green spaces.
- Keeping green spaces green. No drones.
  - Don't over-develop
- Futuristic-jet packs & drones
  - Robot, charging stations, & Wi-Fi
- Four seasons pool
- Trail cams to identify litter bugs
  - More responsibility through transparency
- Big screen for virtual reality outdoors
- Wilderness access-electric wheeler is okay but only for indoor use, track chair, technology advances can help
- See these parks, as is, no loss of what we have
- Bike paths throughout city, rental bikes, funding & rights of way. Could get corporate sponsorship
- Think about motorized access as technology advances. Sidewalks repurposed for bikes & other mobility
- How smooth will trails be to use them by senior citizens

- Make sure all trails can be used year round
- Park benches, food vendors
- Self-interpretive using technology
- History, ecology
- Connectivity between parks using multimodal
- Increasing usage of water using multimodal water transportation
- Access points to become disconnected
- Multiuse center-interpretive center
- It'll be virtual-don't need outdoor spaces
- Envision
- Skating rinks-consolidated space- & then kids using & walking to rinks
- Integrated health, wellness & transportation to parents won't be driving kids to rinks/parks. They are walking themselves
- Multigenerational use of parks. Assisted living interacting & learning & teaching kids/youth
- Lower income public housing problems in parks
- Public housing/lower income integrated more evenly distributed-w/ green space
- More community center & events on Barker's Island-outdoor theater venue, music, food court
- Self-guided tours w/in the forest & water paddling tours guided
- Water ways-water trails designated
- Short-term camping for canoers on Barker's Island & Wis Pt & Municipal Forest
- Community gardens
- Pond hockey tournament include skate competition
- Skating trails-flooded lazy river trails to skate municipal forest
- Biking-hippodrome/
- Hopeful people are going outdoors in 20 years
- No technology reservation space/area
- Fat tire designated bike trails
- No snow-no winter
- Technological integration include history & learning & interp.
- Integrate 1 facility to serve many uses and different demographics
- Public housing green space corridors
- Water trails & expand lake use
- "No tech" reservation area
- Wi-Fi
- Trail cameras for surveillance & security
- Noise-pollution control
- More proactive user groups
- ADA accessible
- More rental bikes
- Corporate sponsorships
- Year-round/all demographics able to walk/wheel chair trails
- "log in" to a park virtually
- Proper planning and development for the future
- Retention and growth of greenspace
- Parks and open space to be utilized a lot more
- Determining a funding source and utilizing it
- Zipline in Superior
- Engagement with user groups
- Sense of community around the green space
- Public and private partnerships
- Participation in community gardens
- Safe walking, biking, running trails throughout the city

- “pod” station with interactive trails on your phone so you can navigate through the forest feeling safe
- Can be interactive with kids for “pod” station
- More video surveillance in parks and parking lots to feel more safe
- Docking stations for various outdoor equipment rental
- More docking/boat station parking on waterways
- Destination location
- Positive community volunteering engaged, value park system
- Pride in what’s available
- Children engaged in outdoor activities & what’s available to them (biking, trails, outdoor in general)
- More home ownership vs. sub rental more engagement/ pride
- More green space/ connected
- Appreciated amenities solid community
- Retain residents
- Make Superior a destination instead of people leaving
- Adventure, activities & engineering to attract people to our community
- Superior front of people’s needs for Midwest outdoor recreation, waterfront, beaches, hiking, accessible trails
- Billings Park swimming area reinstated
- Informational signage/educational plants, etc. app, interactive, etc.
- Charging stations for bikes, cars, phones, technological connectivity
- Trails connected-healthier community reduced stress/outdoor
- Experience expansion of indoor recreational facilities-sports areas indoor skydiving, fields, etc.
- More community events in neighborhoods
- Flexible spaces
- Active community
  - Year round
  - Multi-generational
- ADA Compliant access facilities (restrooms, rentals, storage)
- Selected development of lakefront (development that enriches use)
- Parks & Rec seen as more integral part of community development (budgeting, planning, etc.)
  - Quality of life to attract/retain citizens
  - City development needs to be cohesive
- Build community appreciation for parks (build engagement in neighborhoods, schools, etc.)
- Connect neighborhoods-bike trails, walking trails to parks, schools, shopping areas
- All of which will build economic development
- No loss of space, same as it is today in open space. Don’t lose any space
- Information centers on have thing/have been developed
- As a destination for recreation center
- Known for our municipal forest
- Accessibility improved
- Research laboratory for the university
- Bird sanctuary
- Much greater usage than what is today
- More fishing
- No BUCKTHORN
- Want public accessibility & our parks to still exist
- Clean, maintained, utilized parks
- If we do a good job making our parks attractive & aesthetically pleasing, we will have attracted people here
- Tree city status
- WI Point access to fresh, clean water

- Bathhouse facility
- Size & quality of what we have-value of land will increase over time so need to protect it for future generations. Connected to quality of life.
- Do not develop Municipal Forest-it's not sustainable to have to maintain even more
- Destination Recreation Event (like Dragon boats but in parks) be sure to be family friendly \*
- Youth involvement- be sure that kids are playing outside
- Fewer geese & squirrels
- Side concern: Winter Festival had too much alcohol not family friendly
- WIFI everywhere-or more places with WIFI
- Robots that clean-up vandalism/litter
- Tram through the city
- Accomplish what we set out on first question
- Developing the Superior Municipal Forest
- Parks and rec system that aids tourism
- One stop shop
- Parks and rec system that retains & help grow population
- Volunteering, prideful & engaged community
- Connected city
- More home ownership b/r
- Swimming area back (Billing Pad)
- Charging stations
- More indoor facilities
- We want to accomplish things the new plan addresses now-then build from there
- Retention & growth of greenspace
- Zipline
- Develop strong partnerships
- Community gardens
- Virtual/interpretative phone service for users
- Info centers
- Destination for recreation
- Research lab for UW-S/HS
- No Buckthorn
- Improve public accessibility
- Worldwide/family friendly destination event
- Connect parks to other city resources & neighborhoods, shopping, schools, ext.

Q3. Where do you see opportunities to improve or enhance features or programs that exist in the parks, recreation and open space system?

- Trails, hiking, walking
- Splash pads
- Dog parks
- Restrooms
- Tennis courts into mini dog parks
- Camping
- Scale back on tennis courts and parks not being used
- Bring resources in alignment with demand
- BMX track Skate park
- Disc golf
- Ninja warrior obstacle course
- Pump track-mountain biking. BMXish

- Low impact, low cost, low upkeep
- How many different things we have & pairdown/diversify
  - Too many tennis courts
  - Too many skating rinks
- Look at how to build w/ different partnerships. Inclusivity
- Get advertising out to residents to inform
- Get all season restroom access to
- Focus on making trails useable all year. Maintain, culverts, mow, ect. ->pe buyers within city forest
- Using the trail assets year round in the most important
- Restroom access in all areas. Allow for access while preserving the area
- Outreach to everyone outside of electronics
- Low cost, impact and maintenance areas can be focused on, improved & expanded and maybe reduce areas that are too duplicated (ex. Tennis courts)
- Utilize Wisconsin Point more
  - Bring out more amenities, vendors
  - Use of water ways with vendors
  - Boat use at Barker's Island
- Elevated platforms & updating archery range
  - Up to code & specs for user groups
  - Updated targets for bow enthusiasts
    - Meeting needs of user groups
- Better maintenance for x-country trails
  - Better budget for trail so it can be used by users
- Better maintenance for hiking trails
- Better co-operation between user groups and the city
  - Find opportunities to build trust
- Nature center for larger parks
  - Staffed, longer hours & equipment
- Developing 18-hole disc golf course
  - Very popular activity that needs a real course and spaces in town
- Old piers or elevators can make something to access water convert for use
- Make Millennium Trail all around city
- No room at Connor's Point. No concert space
- Walking trails need wild flowers. Bird watching. Attract visitors
- Trail surfaces-carbon minimum imprint no excess water runoff.
- Don't emulate Duluth but be accessible to Duluth. X-country skiing
- Water shuttle taxi-Barker's Island to Park Point
- Municipal ski area
- Arrowhead fishing pier
- Advertise to birders
- Restrooms
- Improved launches at Pokegama Bay (like stones bridge along Brule)
- Keeping trash picked up-change perception
- Early childhood nature play area on Barker's Island
- Mountain bike trails (more of them & more entry level based trails) (enhanced)
- Duel greenspace & flood retention strategy
- Redefine Millennium Trails, Osaugie Trail so they are paved & walkable not used for motorized purposed in winter
- Adjust trails to keep up w/ modern advancements trends
- Private partnership or government renting snowshoes/ski, etc.
- Lighted ski trails in forest (red loop)
- Full court basketball in Kelly Park
- Opportunity for & other small parks more skate (ski trails vs. classic leisure skating/skiing)

- More running/hiking trails
- Acknowledge change of weather seasons & less snow
- Community garden space/public
- Tennis court back stops
- Rails to trails-biking, walking
- Improve COGS trail near HWY 105
- Improve skijoring trail in Oliver
- Keep Osaugie Trail in good condition
- Fishing piers, boat landings
- Disc golf
- Connecting trail between Olive & Fond du Lac
- Adding more XC ski trails
- Add more snowmobiling trails
- Water taxi between Barkers & Park Point
- Use the Soo line trail
- Better use & expand WI-Point ->make more safe w/ lights, ext.
- Elevate & expand archery range
- Develop relationships with user groups to expand maintenance
- City to develop a waiver for volunteer groups. Eliminate hurtles
- Dual use: green space & flood prevention!
- Improve access to water (boat & kayak launches)
- Nature play area for kids
- Improve local hockey rinks to attract more children
- Increase multi-surface parks, for instance: tennis, pickleball, basketball
- Invest in infrastructure to increase efficiencies, for instance, flooding rinks
- Restrooms in every park
- ADA friendly (disabled, etc.)
- Pavilion on WI Point for family friendly picnicking (multiple)
- Enhance summer recreation program
- Expanding hours on summer rec. (bussing)
- Local partnerships camps for kids to go to summer camp that shows kids parks & recreation in Superior
- Bussing from YMCA & other schools daycare centers to get them there
- Connecting ATV trail systems
- More boat docking areas near waterfront parks
- Municipal Forest parking-trailhead multi-use facility & event space-school district & university athletic events, concerts, weddings, etc. rental interpretive center destination/restroom-gateway to forest similar to hartly/water similar @ Wis. Pt.
- Children's programs expanded in summer utilized parks-activities/camps
- Education & communication & marketing of existing features & programs
- Wis Pt reviews marketing is negative provide a way to interact & make it safer & positive/more things to do
- Restroom & garbage receptacles
- Changing rooms/Wis Pt & Billings/Municipal Forest
- Safety, visual surveillance/cameras check in center-staff @ entrance to similar to Wis Pt State Park Systems
- Have schools & other programming around utilize possible spaces/parks, etc.
- Opportunities to partner between school district & city gov. w/ facilities/cooperation object groups in town
- Increase pay to city councilors so they can make more courageous decisions on behalf of residents
- Bathrooms/H<sub>2</sub>O ADA accessible
- Paddle only boat access

- Capitalize on outdoor rec interests
  - Trail development that connects with mapping that is accessible
- Promote city as recreation destination
- Clean Barker's Island \* maintain
  - Bird droppings
  - Fishing pier
  - Promote as festival/event space
- Education (families) (sort of like Hartley)
  - Capitalize summer park program
- Build partnerships (accent help) ENCOURAGE
  - Look for new/unique partnerships
- Expand parking due to increased usage of dog park and other uses
- Provide better direction to users to minimize conflicts & impacts
- Maintain existing trails to promote more use-seasonal limitations
- Continue & improve summer school children programs in the parks-environmental learning
- Add pavilions at key heavy use parks: Osaugie Trail, Wisconsin Point, Forest
- Continue to look for connectivity & expansion opportunities for city trail systems-paved & unpaved
- Develop community events to utilize and promote park use
- Expand/promote corporate funding
- Staff the ski trails for grooming & ski fees
- Along creek behind YMCA (Faxon Creek) develop lit pathway
- SWL & P educational outreach on water quality
- Promote volunteerism, publicize opportunities
  - Ex: community calendar, (+) communication among user groups
- Communication
- Public access to SHS pool
- Another option for disc golf in town-relatively affordable
  - Opp for leagues, tournaments, user fees
- Continual improvement @ 28<sup>th</sup> St Water access
- McClure's Landing Rd as water access
- Publicity of assets that already exist
- Water quality @ Barker's Island
  - Keep geese out
- Bball courts at Red Barn for warm weather use of the space
- Air quality
- Opps to get kids outdoors
  - Ex: geocaching activities
- Improve bike trails-or road biking
- Public transport to parks
- Inexpensive exercise equipment at park for all ages
  - Disc golf baskets at parks
- Don't invest in b-ball courts/tennis courts, expensive things that don't last long
- Connect Wild Rivers, Saunders grade, Tri-County Corridor & City of Superior for year round motorized use
- Easy accessible parking for cars/trailers/pickups
- Signage
- Accessibility to use parks & rec for more events, fundraisers, entertainment, tourism
- Coordinated effort to have parks & rec assist tourism
- Exercise or equipment for all ages for all parks
- Invest in low cost high use-equipment
- Connect the 3 big trails to city/all seasons
- Fundraising events & community promotion
- Parking.....said a lot

- Improve summer school/education
- Try to get all resources for all seasons!
  - Adapt park/resource for each season
- Pavilions on WI Point
- Getting kids out in the summer and working w/ parents schedules bussing system
- Public transit opportunities to parks
- Bathrooms & drinking water facilities
- Boat access motor only & kayak only
- Multi-use facility that is a go to place and can be used all years & diff events
- SUMMER PROGRAMS!!!
- Visual surveillance, lights, & security increases!

#### Q4. What do you feel are appropriate uses, activities or practices for the Superior Municipal Forest?

- Expanded user groups
- Yearlong use
- Harvest timber
- Selective housing
- Build tax base
- Infrastructure
- Single-family dwellings
- Camping tent pads
- Snowshoeing
- Nature center
- Bird watching
- Restrooms
- Security of park area
- Play area for ATVs
- Biking trails
- Running, hiking, biking
- Forest tree management plan, select cutting for new growth, vegetation, enhances wildlife, and recreational use, and generate revenue to put back into the forest
- Existing trails to make 4 season trails to attract tourism
- Disc golf course
- Manage invasive species in forests animals & plants
- Add wooden "board walks" in bog, marshy areas of trails
- Build an environmental learning center/try to make it the school forest
- Build outdoor event space for concerts, weddings, (rentable)
- Add campfire pits for community gathering
- Geo caching
- Gazebo
- Public space/remain & maintain current uses
- Multi-use activities enough space to separate uses snow mobile trail, ski trails, etc.
- Residential development on peripheral of forest property selective development to increase tax base so as to reinvest in forest & outdoor recreation
- Sale price generate cash & then increase tax base
- Organized common sense approach
- Year round trails/hiking/biking etc. walking etc.
- More ATV year round usage motorized trails
- Mitigate some wetlands

- Selective timber harvesting forest management plan develop forestry management to promote old growth trees
- City parks admin office located in forest/connect
- Private/public partnerships rentals of kayaks, bikes, canoes, etc.
- Stewardship & protection in decision making
- Appropriate use-designate motorized & non-motorized areas
- Increase use year round options
- Including better signage
- Biking, fishing, running, skiing, hunting water fowl only archery fat tire too
- Limited camping availability (and promote it)
- Visitor center/education center
- Warming area/chalet
- NOT RESIDENTIAL DEVELOPMENT
- Skiing (XC)
- Biking (hard & soft trail)
- Running
- Walking
- Hunting
- Fishing
- Camping
- Bird watching
- Disc golf
- Paddle sports (kayak, canoe, paddle board)
- Keep separate the motorize/non motorize
- Swimming
- Interpretive trails
- Preservation activities (environmental awareness)
- Snowshoeing
- Night time activities
- Hiking
- Biking
- Skiing
- Hunting-bow (non-explosive)
- Paddling
- Disc golf
- Archery
- Bird watching
- Camping
- Collab w/ estuary research reserve
- Environmental Education-school field trips
- Restricted/designated snowmobile trails & other motorized trails & actually enforce the designated use
- Skijoring
- Snowshoeing
- Fishing
- Boating
- Music events
- Family-friendly movies
- Herbal foraging
- X-Country ski rental equip to include kid sizes
- "Chalet" as hub
- A nature center
  - Ex given: Hartley Nature Center

- Allowing dog walking in the forest on non-paved trails
- Better promote activities that are currently out there
- Camping, hiking, cross country skiing, picnic, ATVing the loop trail, archery
- Entertainment type center
- Trail head
- Pavilion with BBQ's
- Development & maintain existing trails
- Water access
- Disc golf course
- Security robots
- Trails (motors)
- Non-mo. Trails (keep separate)
- Music event
- Herbal foraging
- Chalet for hub
- Year round use
- Signage
- Waterfowl hunting
- Silent sports
- Forest man. Plan with this->reuse the forestry \$ into the forest
- Invasive management
- Make some space rentable
- Firepit for gatherings & for renters
- Allow dogs to walk on trails
- Promote current resources in the forest already
- Security robots
- Maintain & keep current resources
- Buffer trail types
- Selective timber harvest
- City park office located there
- Rental facility w/ equipment...
- Seasonal disc golf course
  - Use of x-country space when it's not in use
- Nature center-star attraction
  - Kids retreat like "wolf ridge"
  - Large center to answer all questions
  - Use this hub to build on
- Forest management plan to protect forest
  - Development is good, but let's keep it healthy
- Outdoor education programs
  - Staff & teach kids about park
- Enforcement in the park of any kind please
- Recreation, education, preservation of resources
- Forest has lots of wolves. Camping, human waste disposal. Technology needed. State standards.
- Camping at WI Point
- Superior hiking trail campsites. Adds expenses.
- Dwight's point has three raised campsites
- Ammo can lined with plastic bags
- Skiing, snowmobiling
- Not to sell off for housing. Nemadji golf course 36 to 27
- Interpretive center
- Leave as natural and intact as possible
- Camping areas

- More patrolling of road
- Activities and facilities that will still preserve the forest
- Skate trails-frozen flooded ski trail
- All season uses-year round uses
- Incorporate disc golf course 18 hole
- Sustainable forest management plan
- Nature walk-interpretive
- Water trail designation
- More camp sites/primitive
- Ice fishing access
- Water visual increased view, selective removal of trees
- Respite from urban lights/dark zone
- Nature center-non-profit similar to Hartley Nature
- Citizen science activities kids, elders, check out what you could science project
- Archery range/clay range
- Promote forest less-best kept secret
- More state natural area from DNR into designation
- XC skiing
- Hiking
- Biking
- Archery
- Nature center
- Camping
- Pack in-pack out camping in city forest
- Interp. Or visitor center in M. forest
- Sustainable forest management
- Zone out light & noise pollution
- Nature center to build around (hub)
- Plan to keep forest healthy
- Seasonal plans for the forest show
- Distinctive uses for each season
- Really focus on season development
- Looped trails if possible
- Business done in to do rentals –Biz that do rentals of canoe, paddle boards, bikes, etc.  
Horseback demos to tie into partnerships
- Additional high end housing on outskirts to increase tax base
- Selective timber harvest to make \$. Appropriate management within state management for health of forest
- Water access to trails
- Enhance trails, multi-use, better promotion of that
- Off-leash dog trails
- More hunting & fishing access (shotguns only archery)
- Road access
- Handicap accessible areas
- Control development, houses
- Archery range improvement
- The question is, how much do we want to develop it? That may change the character of it.
- Multi-use trails
- Timber, harvest
- Horseback riding
- Nature Center for education & public use or maybe facility to rent out for weddings as well
- Mountain bike track, the clay soil is ideal
- Campsite on Brown's Point in the forest

- Pump water from lake to land for ice trail
- Multi-use is most important part. Need to make something fun for all->it's a blank canvas
- Open for hunting (deer=shotgun/archery->grouse as well)
- Control housing development around the forest and no selling off land. Draw forest line and it will stay, forever
